HOW IT WORKS

WHO CAN DONATE?

We pride ourselves on a high acceptance rate as our donor approval rate in 2016 was 94%

- ✓ We are **inclusive**: UTN accepts M.E. cases autopsies, and transplant donors
- ✓ We are **flexible**: UTN accepts donors up to 7 days after date of death
- ✓ We are **fast**: Most donors can be approved after a brief interview with next-of-kin

WHAT WE PROVIDE

United Tissue Network is a nonprofit 501c3, AATB accredited, whole-body donation company serving donors, medical professionals and funeral home partners since 2009.

- ✓ Removal from place of passing and transportation to the funeral home
- ✓ Continuous refrigerated storage
- ✓ Permit preparation and filing
- ✓ Death certificate filing, including retrieval fees
- ✓ Two certified copies of the death certificate sent to the family
- ✓ Transportation to United Tissue Network

Anything not included can be offered to the family for additional benefits/revenue.

TESTIMONIAL

"Our motto is families first! We believe that offering donation services through UTN will expand choices for our families. The option of donation of a loved one will bring comfort to families who want to make one last gift to improve the lives of others. As a full-service funeral home that offers an economical choice to Oklahoma families we believe that UTN is a perfect choice to add to our services. We can give families who choose to donate the opportunity to have a memorial service to bring closure and offer their family a chance to memorialize the passing of their family member."
