

## Peace, Hope and Joy

The loss of a loved one is an event that everyone experiences in their own individual way. It is important to remember that even though your grieving process is unique, you never have to face this obstacle on your own. At United Tissue Network, we believe that the donation process includes preserving the life and memories of your loved ones after their passing. We think the best way to do this is to provide you and your family the necessary resources to help you on your journey.

We wish you peace, hope and joy as you continue on.

'Open to Hope' is an organization that provides support for dealing with death and grief. Their mission is to help people find hope after loss.

Visit their website to find an understanding community and resources to help you at this time.

We want to know more about your loved

one and the life they lived. We provide a 'tribute' page for our donors. You can write a message for your loved one that will memorialize their life and memory for others to remember them by.
