It's summer and it is HOT outside! While it's nice to enjoy the warm weather, please remember that sun exposure can also be dangerous to our health. July is UV safety month. Remember to wear your sunscreen, limit your exposure to the sun during peak hours of the day (between 11 am and 4 pm) and try and wear a hat and sunglasses to protect your face and hands if possible. These are all simple ways to protect yourself against skin cancer. UTN is happy to support the efforts of the American Skin Cancer Association in spreading awareness this month!

#UVSafetyAwareness2021 #UTNCares

Help us spread the word about UTN. Did you know our Donor Services team is available 24/7? Give them a call, send them an email and refer your friends and family! They are always ready to answer your questions.

Stay safe, stay healthy!
~UTN
Tell Us Your Story!
Visit our Donor Tribute Page to read the beautiful memorials left by our past and future donors as well as by the family members of those who have donated. We provide this service as a way to continually honor and remember all the loved ones who have made a difference in the lives of many through our donation program.

Donor Tributes!

How much do you know about whole-body donation?

There are many different reasons that a Donor decides to donate their body to science. However, a large reason donors decide to make whole-body donation their end-of-life wish is there is little to no cost involved with donation, and with most whole body programs being at no cost to the families. With funerals ranging from over $7K and most cremations averaging around $6K, moving towards whole body donation makes sense financially for many individuals when making end of life plans.

Click the link below to learn more about the benefits of the whole-body donation process.

UTN Donor Tribute

Momma never met a stranger and always wanted to contribute to make things better for someone else. She was excited to learn even with her cancer she could contribute and help someone after her passing!! Thank you for making that happen!!

– Michele Miller-Hayes
